SPONSORSHIP OPPORTUNITY

Physical activity through recreation is important to the health and well being of our community, particularly in the winter months. Show your support by **sponsoring a public skate**.

In addition to physical activity, public skating is a great opportunity for the whole family to lace up and feel the excitement of being on the ice together.

The Public Skate Sponsorship Program offers local businesses a cost-effective opportunity to support healthy family recreation in our community and promote your business. Your sponsorship will provide free use of the ice during the public skates and provide free skate rentals to those that require them.

The Public Skate Sponsorship Program does not require the sponsor to organize individual ice rentals or promote the event. However, should you wish to organize and promote your own rental, we are also here to assist.

The East Elgin Community Complex is currently offering Public Skating from September to March from 1:00pm-2:30pm most Sundays. Local businesses and organizations have an opportunity to sponsor a public skate (including skate rentals) to be offered **free-of-charge** to our community.

The sponsorship details have been provided on the attached sheet.
To sponsor a skate, please feel free to contact me at your convenience.

Thank you for your support!
